

# FLAVOR FINDER

You are a Food Scientist!

Use the Remember Success Skill to  
test combinations, and feed the Beeples!

## HOW TO PLAY

1. **Check the goal!**  
The Beeples want flavors.
2. **Combine ingredients!**  
Add foods to the beaker.
3. **Feed Scout and the Beeples!**  
Remember what you already tested, and try again!

## ASK YOUR CHILD

- What ingredients make the food sour?  
What sour ingredients could you add to the game?
- What's the hardest thing to remember?
- Can you think of anything you eat that a Food Scientist might have made?
