

FLAVOR FINDER

You are a Food Scientist!

Use the Remember Success Skill to
test combinations, and feed the Beeples!

HOW TO PLAY

1. **Check the goal!**
The Beeples want flavors.
2. **Combine ingredients!**
Add foods to the beaker.
3. **Feed Scout and the Beeples!**
Remember what you already
tested, and try again!

ASK YOUR CHILD

- What ingredients make the food sour?
What sour ingredients could you add
to the game?
- What's the hardest thing to
remember?
- Can you think of anything you eat that
a Food Scientist might have made?
